- Erlangen; Jewish community collection 1891-1988, 1 folder (LBI).

NOTES:

- This Jewish community used the cemetery in Baiersdorf prior to having their own burial ground, which included a substantial, red brick built mortuary and a house for the cemetery caretaker.
- The cemetery was not desecrated until May 1939, when it was destroyed. It is enclosed by a hedge and wire mesh fencing with an iron gate. The house of the cemetery caretaker is still occupied.
- A large memorial stone was dedicated in November 1983 to the memory and in honour of the Jewish victims of the Nazi tyranny from Erlangen, of whom 31 perished in concentration camps and 3 who committed suicide.
- The cemetery is now protected under a preservation order for sites of historic interest and is kept in exemplary condition by the city of Erlangen.
