The 1850 Jewish population by census was 69 and in 1930 was 110. In May 1944, the Jews were gathered in the ghetto of Dej and on May 28, June 2,8 were deported to Auschwitz. The unlandmarked Orthodox cemetery was established in 19th century. Last known burial was 1940.

The isolated rural/agricultural hill has no sign or marker. Reached via private road, access is open with permission. A fence with a non-locking gate surrounds the site. Approximate pre- and post-WWII size is 2500 m. 100-500 stones are visible. 20-100 stones are not in original location. 25%-50% of the stones are toppled or broken. Location of stones removed from the cemetery is unknown. Vegetation overgrowth in the cemetery is a seasonal problem preventing access. Water drainage is good all year.

No special sections. The oldest known gravestone dates from 19th century. Tombstones date from the 19th and 20th century limestone and granite boulders, flat shaped, smoothed and inscribed, carved relief decorated gravestones have Hebrew inscriptions. Some have traces of

painting on their surfaces. No known mass graves.

The national Jewish community owns the property used for Jewish cemetery only. Adjacent properties are a village setting with houses, gardens, orchards, and pastures. Rarely, private Jewish or non-Jewish visitors stop. The never vandalized cemetery maintenance has been re-erection of stones, patching broken stones, cleaning stones, clearing vegetation, and fixing wall by local non-Jewish residents in Rus Titu, Ciceu Giurgesti, 1999. Current care is occasional clearing or cleaning by unpaid individuals. No structures.
