- "Dr. Moshe Carmilly" Institute for Hebrew and Jewish History, Universitatii Str., no. 7-9, room 61, 3400 Cluj Napoca, Romania, director: Ladislau Gyemant, gyemant@zortec.ro
- Key holder and caretaker: None

The 1880 Jewish population by census was 21, by 1900 census was 26 and in 1930 was 13. In May 1944, the Jews were gathered in the ghetto of Satu Mare and on May 19, 22, 26, 29, 30, 31, and June 1 were deported to Auschwitz. The unlandmarked Orthodox cemetery was established at end of the 19th century. Last known burial was inter-war period.

The rural/agricultural hill, separate but near other cemeteries, has no sign or marker. Reached by a public road, access is open to all. No wall, fence, or gate. Approximate pre-WWII size is unknown. Approximate post-WWII size is approximately 30 x 20 m. 1-20 stones are visible, some not in original location. 25%-50% of the stones are toppled or broken. Stones removed from the cemetery are probably in the farms. Vegetation overgrowth in the cemetery is not a problem. Water drainage is good all year.

The oldest known gravestone dates from end of the 19th century. The 19th and 20th century limestone and sandstone, concrete flat shaped and smoothed and inscribed common gravestones have Hebrew inscriptions. No known mass graves. The local Jewish community owns the property used for Jewish cemetery only. Adjacent properties are agricultural and local cemetery. Rarely, private Jewish or non-Jewish visitors stop.

The cemetery was not vandalized in the last ten years or occasionally in the last ten years. [sic] Maintenance has been clearing vegetation. Current care is occasional clearing or cleaning by

individuals. No structures. Security is a very severe threat: (no fence, no gate and far away from the village) Weather erosion is a moderate threat.

Claudia Ursutiu, Pietroasa Str. no. 21, 3400 Cluj Napoca, Romania, tel. 0040-64-151073 visited the site and completed the survey 28 July 2000 using the following documentation:
